

Returning to school

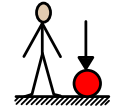

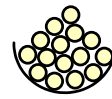

The government have decided it is safe to go back to school.

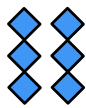

Lots of people feel anxious about going back school.

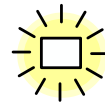

The school has done lots of things to keep me safe in school..

Some things will be different in school but lots of things will stay

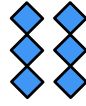

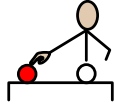

the same.

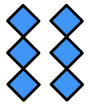

The staff at school will help me understand the new rules

to keep me safe in school.

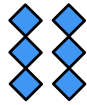

Things that are the same in school

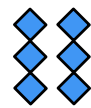

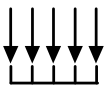

The same children will be in my class.

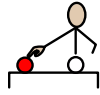

I will wear my school uniform and PE kit.

I will have the same lessons.

All the staff in the school will be the same.

Things that will be different in school

I will be with my new teacher in a new classroom.

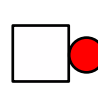

I will be starting school with just my year group.

Playtimes and lunch will only be with my year group.

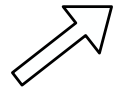

I will eat my lunch in the classroom or outside.

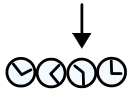

I will keep my bag and coat by my desk.

I will have my own special school pencil case.

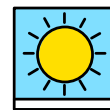

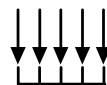

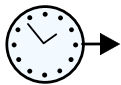

The school has a one way system with arrows.

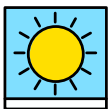

Sometimes staff will wear gloves, apron and a

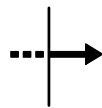

face mask to help children.

I will wear my PE kit all day on the

day I have PE.

Google classroom will carry on helping me with

my learning and homework.

Things I can do to help

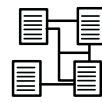

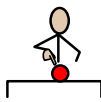

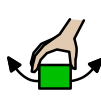

keep me safe in school.

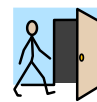

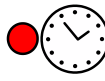

I must keep social distance in school.

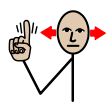

I must wash my hands a lot in school.

I must use the one way system in school.

I must wait with my adult before I go into class.

I must not share my pencil case with other children.
